Distribution and Strategic Partners

- 435 Distributors & Dealers in 88 Countries

- Major Customers

- Strategic Partnerships

STORM - The first affordable RPA (Residential Power Appliance) for Homes and Business

The Storm is a cost-share
partnership project with NREL

- ✓ Produces power in exceptionally low winds
- ✓ Silent operation
- ✓ Aesthetically pleasing
- ✓ Low Cost / High Volume production
- ✓ Competes in the retail electricity market
- ✓ Offered as a complete solution / no other major components needed
- ✓ Lowest Cost of Energy of any RPA product (\$0.06/kWh @ 12 mph)

Competitive Position

What sets Storm apart from other technologies

- ✓ First system to incorporate all components
- ✓ Can be installed within a few hours
- ✓ Marketed at an appliance through a big box store
- ✓ Designed to work on typical light poles
- ✓ Complies with most zoning ordinances

"The average cost of energy In the U.S. is \$.09/kWh"

Storm is the first of a new generation of RPA technology. In many areas the Storm has a net payback of less than five years

Storm's Market Opportunity

- 13 million U.S. homes are candidates
- International addressable market size is in the hundreds of millions of units
- 2+ million small businesses located in industrial zones appropriate for small wind systems
- D. G. market entrants include major multinationals: e.g., BP, Shell, Kyocera, GE, Siemens and Sharp
- Projected Market Growth > \$110 million by 2010
